(54) POWDER FOR MAKE-UP

(57)Abstract:

PURPOSE: To obtain powder useful for cosmetic having extremely improved water repellency and water resistance, preventing make-up disorder, having excellent spread on the skin, moist feeling and transparent finish feeling, by coating powder with a specific organic fluorine compound.

CONSTITUTION: Powder coated with a compound containing 2W20C perfluoro alkylene group and two or more hydroxyl groups such as a compound shown by the formula [R is 1W5C alkylene; AO is 2W4C oxyalkylene; Ccf2c are straight-chain or side-chain-containing perfluoroalkylene; a and b are 0W10; c is 2W20; d+e is 0W20 ($d \geq 0$ and $e \geq 0$)]. About 0.5W40wt.% organic fluorine compound is used based on the powder and the powder is blended with the organic fluorine compound which is melted or dissolved in a solvent to readily give the coated powder.
